Dear Valued Clients,

I want to let you know that we are keeping a very close eye on the latest developments with the Novel Coronavirus (COVID-19) so we can keep our team members healthy and allow them to continue to provide you with timely and professional valuation services.

From the start, Specialty Valuation Group (SVG) was built as a cloud-based company, which allows our entire staff to easily work remotely without skipping a beat. Whatever happens as the situation with COVID-19 transpires, know that our team has the means to serve you from any location. We encourage you to keep open communication with your points of contact here at SVG. We are here to address any questions you may have regarding your appraisal and/or market-study needs. We are open, working and available to you when you need us. Our appraisers will adhere to the CDC-recommended precautions during all inspections and site visits. We assure you that we will maintain the high level of professionalism that you have come to expect from us over the years, in the office and out in the field.

The implications this outbreak will have on the real estate market is currently unknown. The level of impact will be dependent on the scale and longevity of the outbreak. Our appraisals during this time are based on the best data available to us at the date of valuation; however, values and revenue may shift significantly over the coming weeks and/or months. Therefore, we recommend that you keep the valuations during this period under frequent review. We are here to help.

As far as SVG is concerned, it is business as usual. Should you have any questions about our response to COVID-19, please reach out to us. Your peace of mind is important to us.

Be well.

Thank you for your continued business,

Aaron Wright, MAI, MRICS, ASA
President | Executive Managing Director
Specialty Valuation Group (SVG)
